96% of our military customers choose this option!

COOL DOWN with Protective Products patented Cool Plus™ System.

In addition to reducing heat stress, The Cool Plus™ System drastically minimizes blunt trauma from a projectile, auto accidents, or physical altercations. It also provides heat in colder weather conditions. The Cool Plus™ System never has to be sent back to the factory to be recharged and carries the same 5 year warranty as the vest.

Protective Products patented Cool Plus™ System is the coolest thing to happen to Body-Armor.

NEW

The new ESP Carrier (patent pending) from Protective Products is the latest improvement to personal body armor. This suspension system was designed from our direct response to our customers' needs and suggestions about sagging ballistic panels.

In addition to the suspension feature, here are a few of the benefits of the new ESP Carrier:

Removable straps

Soft padded shoulder straps

Soft padded 4" side straps

Sleek soft-touch carrier with moisture wicking inner liner

Cool Plus System compatible
